~~(TSC)~~ Memo from DIRNSA, Blake → Klocko – COMUSAFSS

"I feel ... that our first priority Reqmt is reporting reaction in connection with high and low level reconnaissance flights. Our problem is that limitations in physical facilities enables us to do only very limited processing there. The processing capability presently on hand enables us to ~~do only very limited processing there.~~ to meet the a barely limited ~~portion~~ the reqmt for reaction reporting. In order to prepare the analysis necessary to meet the requirements of CONAD and AFLANT, we would have to double our present analytic effort

. . . .

"Based on our preliminary information it would appear that in addition to the personnel required to perform the mission outlined above there may be space to intercept and process some portion of the Cuban military problem. If so, I might further propose a co-located army-air force ...

DECLASSIFIED per SEC 3.4(E.O. 12958)
by Director, NSA/Chief, CSS
date 20 Apr 98

Lt. Gen. Blake asked Kloeck for his comments re: the interim solution and the longer term solution. *
