17 JUL

CHIEF OF TELECOMMUNICATIONS

General Carter —

Your phone call to General Johnson has had its affect. Attached is the picture as seen by my comm center chief. After the staff meeting on Friday I saw Col. Randle of the Department of the Army comm staff (OCCE). He says your call had a powerfully therapeutic affect there, and that as a consequence they have a better insight to Army communications problems worldwide.

Leslie J. Bolstridge
Chief, T1

UNITED STATES GOVERNMENT

Memorandum

14 JUL

TO : Chief, T1 [redacted]

DATE: 14 July 1967

FROM : Chief, T11
3293s, nas

SUBJECT: Missent Traffic from RUEPCR

1. Reference your Memorandum for the Record, dated 5 July, Subject: Telephone Conversation with Mr. Morton A. Brill, OCCE. As a result of General Carter's phone call to General Johnson; and delivery to Mr. Brill of the heading of missent messages the following has ensued:

2. Received a call from Colonel Emerson, OCCE, stating review was being conducted immediately and actions were being taken to correct the situation. He asked for a daily report on the progress or lack of progress to be made to Mr. Camp in the same office.

3. Such contact has been made by me with Mr. Camp on 5, 6, 7 July and at Mr. Camp's request with Mr. Sam French, Ass't Chief Opns Branch, DA CommCenter 10, 11, 12, 13, and 14 July.

4. As a result of this close coordination, changes in in-station practice at DA and the addition of page monitors on their circuits to us, the mishandled messages have diminished from 30 to 50 a day to 4 to 9 for a 24-hour period out of an average daily total of 1,000 transmissions. The number of missents for the latest 24-hour period was 3 out of 984.
