1. NSA is establishing an ad hoc planning group to prepare a plan to improve the collection and processing posture against Cuba. The major areas to be ~~tested~~ investigated by the group are:

A. Scope of support required by recent developments, both tech and political.

B. The feasibility of a greater degree of centralization of support, including the consolidation of intercept and processing at as few locations as technically practicable.

C. The establishment of jointly manned facs (intercept and processing) to take advantage of available manpower and physical facs.

D. Pers Rqmts, Construction Rqmts, and other costing data necessary to support the Support.

DECLASSIFIED per SEC 3.4 E.O. 12958
by Director, NSA/Chief, CSS
date 20 Apr 98

2. The Study Group will submit this plan by 1 Nov 62.
