DRY CARGO SHIPMENTS TO AND FROM CUBA IN SOVIET SHIPS
1 January - 31 March 1962

1. During the first quarter of 1962, 43 Soviet dry cargo ships made 43 voyages to Cuba delivering at least 228,000 metric tons of cargo excluding military cargo.[a] These ships also transported approximately 370,000 metric tons of Cuban sugar and 2,238 tons of nickel concentrate to the USSR. Although the number of voyages during the quarter remained on a par with the first quarter of 1961, the tonnage deliverd in 1962 represented an approximate increase of 50 percent over the known tonnage for that same period in 1961. It also represents the largest number of known tons of cargo shipped to Cuba in Soviet ships for any quarter since shipments began. The following table shows the number of shipments and minimum amounts to Cuba monthly.

Month	Number of Calls	Tons Delivered
January	13	66,689
February	17	85,484
March	13	76,085
Totals	43	228,258

2. The cargo ship SEVASTOPOL' [UOJE] was noted departing the Baltic on 25 December 1961 with an unknown cargo and arriving in Havana on 26 January 1962. However, it is estimated it arrived at an unknown Cuban port, possibly Mariel, on or about 14 January and departed on or about 25 January. This ship may be one of two ships reported unloading military equipment including armored tanks at Mariel 12-15 January and may also have unloaded four motor torpedo boats at Havana on 26 or 27 January (these four MTB's are not reflected under military cargo in the table in paragraph 6).

3. In addition to the above-mentioned cargo ships the Soviet expeditionary ship VLADIMIR OBRUCHEV [UDOK] arrived at Havana on 18 January after leaving Odessa on 20 December 1961 where it loaded diving suits before departing. Before arriving in Cuba it declared for Nicaro with a cargo of fuel oil; however, it proceeded directly to Havana. This ship remains in Cuba engaged in undetermined operations as of the writing of this report.

4. Of special significance is the arrival in Cuba during the first quarter of 1962 of at least eight motor torpedo boats and five KRONDSHTADT-class patrol vessels, all of which departed from Murmansk. The TBILISI [UOUL] and the KOLKHOZNIK [UPLF] each carried four MTB's on deck and towed a patrol vessel. The BALTIJSK [UVHY], BRATSK [UIAC], and L'GOV [UQMW] each towed a patrol vessel in addition to carrying other cargo.[b]

a. See paragraph 6 for known military cargo delivered.
b. See paragraph 6 for further details.

5. The Soviet tanker SLAVGOROD [UCDR], which departed Feodosiya 5 January and arrived at Havana 23 January, carried six motorized cranes on deck in addition to hauling a cargo of gas oil. (The cranes are included in the cargo list under paragraph 6. See [redacted] for additional details on POL shipments).

6. The following table shows known tonnages and types of cargo delivered.

Cargo	Item Count	Tonnage (Metric Tons)
Asbestos		700
