Attached signal from John T
refers to the parcel of unclassified
stuff sent by sea.

It will arrive sometime no doubt
but can you produce some SACCOs
for him in the meantime for me to
send by air. He doesn't say how
many he wants but if you can give me
enough to make a reasonable parcel
& an idea of how many more you
could supply if wanted I should be
grateful.

I will look in on my way out
about 1 o'clock. If you would
like to see me before then I shall
probably be with Bickert & or Doud.
