Dear Elizabeth and Odd,

Many thanks for your kind letter of June 29, for your birthday and for your good wishes!

The end of July was "solned" in Sweden, my children, except two were there, and a number of grandchildren, and everything went off well.

On the following day I took the motorboat, with Margreta and her daughter, and Ingrid with her boy, to Sandhamn. We had quite a rough trip, with thunderstorm and heavy rain, - visibility near zero. But there was, and still is, a little too windy.

Else went to visit her mother in the south of Sweden, and will come here on the 17th inst., when Ingrid and Arthur will leave for the U.S.

She and myself will stay here until the end of the month, I wonder how long Margreta can stay.

Boris Hagelin
And in August Else will go with me to England.

I will write again before we leave Sweden for Cuba. Unluckily it might interest you to hear that I am planning - if all goes well - to come to the US again in February 1970, for Ford's 50 years anniversary.

I was very sorry to hear that ill health has been plaguing you both again. I do hope that you both feel better now.

I myself am in good health and my only trouble is with my sleep, but this has not been too severe.

And as for the state of the world, there is nothing else for us individually to do, but to live from day to day as if every thing were O.K. It's cynical, but safe, I think.

With affectionate regards from

Your friend
