Dear Leo:

With reference to our brief phone talk last week, as to what sort of things you might help us look into, etc., I've talked with Kully and we agreed that as of this moment you could probably help most by serving in a consultative capacity to the group in 31 which is studying IFF gadgetry.

When you get a chance, come down and have a session with them. Let me know when and I'll have necessary travel orders, etc., sent to you.

Best regards to you both.

Sincerely,

WILLIAM F. FRIEDMAN
Special Assistant to the Director
