

12 July 1954

Dr. Stewart S. Cairns
Camp Hedding
Napping, New Hampshire

Dear Dr. Cairns:

Since Mr. Friedman is out of town for two or three weeks, I felt I should answer your letter of 10 July 1954.

Since you were here last, the NSA Registry for Consultants has been established and charged with the detailed administrative responsibilities associated with all our consultants. In view of this, we have turned over all our pertinent records to this unit. I have sent your query to them with the request that they look into the matter immediately and advise you accordingly.

Thank you for calling this to our attention.

Sincerely,

I. T. McDONALD
Captain USAF
Ass't to William F. Friedman
