The Institution for the  
Popularization of Science  
1719 M. Street N.W.  
Washington, D.C.

Dear Mr. Colladay:

My brochure entitled "The Use of Codes and Ciphers in the World War and Lessons to be Learned Therefrom" was published in the Signal Corps Bulletin No. 101, issue of July-September 1938. This bulletin is a restricted publication and is now out of print. However, the Air Corps Lieutenant who is interested therein, could probably obtain a copy on memorandum receipt for a short time loan from the War College Library.

I regret that I am unable to offer any information concerning General Nolan's book.

Very truly yours,

William F. Friedman  
Director, Communication  
Research

Dear Mr. Friedman:

We have been trying unsuccessfully to reach you by 'phone. Will you be so kind as to give us the name of the publisher of your book: "The Use of Codes and Ciphers in the World War and Lessons to be Learned Therefrom"? We have had a request for this book from an Air Corps Lieutenant and we are very anxious to fill the order for him. Perhaps you could tell us too, where we might be able to locate the book: "Military Intelligence in the A.E.F." by Maj. Gen. D. E. Nolan.

Thanking you for any assistance you may be able to give us, We are, Sincerely, The Retail Book Department.

*G. Galaday*
