One of most illuminating documents in decrypts show is book showing net results of all British intercept activities in diplomatic field for second half of nineteen forty two PD. It consists of one sheet or set of sheets for each city in which traffic originated. PD on each sheet the first column shows was alphabetically the cities to which traffic/destined and column one further breaks down traffic for each city according to nationality CWA. All subsequent columns following the breakdown of column two PD columns three and four show by call signs the originating station and station of destination PD parent to strong for Clarke fromMcCormack parent column five shows station or stations which did interception PD column six shows estimated number of messages sent PD this is based on message numbers PD in some cases exact number of messages is known shcoln in others estimate is based on numbers intercepted up to late date in month shcoln in others it may be guesstimated based on small numbers of interceptions not running to end of month PD in cases where senders do not number messages this column is left blank. PD column seven is number of CWA intercepted CWA. Column eight is number missed CWA being interception between column six and column seven CWA which six has been filled in PD.

INTELLIGENT DOES NOT IN ANY INSTANCE INCLUDE TRAFFIC
RECEIVED FROM UNITED STATES AND THEREFORE THAT SIDE OF
PICTURE IS INCOMPLETE PD TOKYO FIGURES SHOW THAT GERMAN
COMMUNICATIONS TO AND FROM BERLIN ARE MUCH MORE NUMEROUS
THAN JAPANESE PAREN ALMOST FOUR TIMES AS LARGE PAREN PD I
CANNOT CARRY IN MIND ALL STRIKING EXAMPLES WHICH I NOTED
BUT ONE OTHER IS THAT ITALIAN TRAFFIC TO AND FROM BANGKOK IS
MUCH LARGER THAN I HAD IMAGINED AND THAT MUCH THAT LARGEST
ITEM IN IRISH GOVERNMENT TRAFFIC WAS TO AND FROM VICHY PD
I GIVE YOU THESE TO ILLUSTRATE HOW MUCH INFORMATION YOU CAN
SPOT QUICKER FROM SUCH A SCHEDULE AND HOW USEFUL IT WOULD BE
IN VARIOUS WAYS CIA INCLUDING SETTING UP OF TRAFFIC PRIORITY
