Dear Sir:

The Coast Guard Academy is preparing a program of lectures, to be given to the officers and cadets of the Coast Guard at New London, Connecticut. It is intended that these lectures start November 4, 1927, and take place between 7:00 and 8:30 p.m. on Fridays from that date until the termination of the program. The lectures are to be given on topics that are of interest to people in the military service.

Commander Root of Coast Guard Headquarters informs us that you lecture to the midshipmen at the Naval Academy and the cadets at West Point on the subject of military cipher work and of your willingness to lecture at the Coast Guard Academy. If you could find the time and opportunity to lecture to the officers and cadets at New London, we would appreciate it very much if you would let us know what Friday evening you could spare.

H. D. HINCKLEY.
