1. Reference Par. 7, Memorandum for the Record, 19

July 1946.

2. After contacting Colonel Mole, Room 2D 838, ext.

72810, it was discovered that Major Fandalls, Room

2D 838, ext. 73934, was writing and would actually give

the one hour lecture called for in the Strategic Intel-

ligence Course. Colonel Mole suggested that he be

contacted in regard to any questions on the lecture.
3. Upon contacting Major Fandall it was found that he did not intend going into Communication Security. His portion of the course will cover Safeguarding Military Information, and will be in a narrative form based on the assumption that all of the students know the contents of AR 380-5. Approximately 45 minutes of the allotted one hour will be taken up citing current examples of violations of the release of information, such as the disappearance of a roll of film on Operation Corssroad while in transit to Rochester, New York, and the precautions necessary to prevent such losses. The remainder of the allotted time will be taken up covering several other important points of AR 380-5.

2. Re: P7 of 19th 46 Memo for Record
   Subject: Speech on Signal Intelligence
   Communications Security. There appears a ref to whom Col. Mole
   is going to include. Would you please have somebody get in
   touch with Col. Mole and bring...
I wonder if the ventilation问题s in the outline of what he is going to say on Cold Security?

Lt Col. Easton
Lt Col. Miller - 5049 is working on preparing a program for Command and Staff College - Ft. Leavenworth, Kansas.

Col. mole is on Ext. 72890 Route 2D838.

All Col. Miller has is the outline of Col. Mole's talk on Com. Sec. 9/6 29 July 46.

Maj. Fandalle of Room 2D838 Ext. 73934 will give the lecture. Col. Mole suggested he be contacted. 9/85 29 July 46.
The purpose of the course on Signal Interpretation was to train the
students to understand and interpret various signals. The course
was further supported by the provision of laboratory facilities.

The presentation of the course, given by Prof. Smith, was
received with great interest.

The department considered the course as an important step in
the education of students in the field of Signal Interpretation.

The students were given the opportunity to present their studies
and received feedback on their work.

The course was considered a success and was recommended for
future inclusion.
