COMINT Relations with

THE CHAIRMAN introduced this item by referring back to the message from ISIB (enclosure with USCIB 29.19/7) which, in paragraph 3, suggested that the Directors, NSA and GCHQ "be asked to ... interpret the elementary aspects of COMINT ..." with regard to He expressed his hope that this meeting would agree upon a reply to ISIB on this point.

CAPTAIN AGNEW stated that he is prepared to table two drafts for consideration by the Committee; one, a draft memorandum for USCIB containing comments and recommendations on USCIB 29.19/1, and the other a draft reply to LSIB on the point mentioned by the Chairman.

In their consideration of the first of the above drafts the members were informed by the CIA member that there is now no pressing need for early action in the matter as far as negotiations by his Agency are concerned.

The discussion then turne	ed to the question	of the limits of	training
to be given the	commer	nting upon the in	definite-
ness of the phrase "elementary	aspects of COMINI	", asked if it w	ould be

to determine precisely what sh	ould constitute th	ne elementary asp	ects of
COMINT in this case.		\ \ 	

The members agreed that such a determination is necessary and upon further consideration of the problem were of the opinion that this point should be resolved before a decision upon other aspects is made. In view of earlier indication that early action in this matter is not necessarily required, the members accordingly agreed to defer further action pending a report of the CIA-NSA discussions.

The subject of obtaining authorization to conduct a site survey in and the associated problem of obtaining base rights there if the site survey indicates such are desirable, were considered briefly by the members who were in agreement that action toward these objectives should proceed without regard for deferment of decision on the aspects discussed earlier.

There followed a general discussion on the extent to which the U.S. should be willing to go in providing the assistance requested by

The members agreed. The members then proceeded to consider the second draft tabled by Captain Agnew, which consisted of a proposed reply to LSIB. Minor changes in wording were agreed upon, resulting in a recommendation that the following reply be submitted to USCIB for approval: "USCIB agrees with LSIB that in the matter of an approach for UKUSA intercept bases in there should be maximum coordination between U.S. and U.K. and that full details of each party's intentions and progress should be exchanged at all stages via normal channels.
