28 JUN 1951

Mr. Joseph Desch  
National Cash Register Company  
Dayton, Ohio

Dear Mr. Desch:

In connection with the forthcoming 2d SCAG Conference, which opens on 10 July 1951 and which I am hoping you will attend, we wish to include a brief presentation on the World War II Bombs which NCR built for Navy. Since there is now at AFSA no one from World War II days who is as well qualified as you are to present and discuss the matter of the engineering design and the various problems in the construction and functioning of that particular piece of equipment, I am writing to ask if you would be kind enough to make the presentation and lead the discussion of that item of the agenda. I should think that 30 minutes could be devoted to this item in our regular session, although in private discussions with other SCAG members you could, of course, elaborate to the extent mutually desired.

Please let me know if you can accept this assignment so that we can schedule you accordingly.

Hoping to receive an affirmative reply and looking forward to seeing you, I am,

Sincerely yours,

EARL E. STONE  
Rear Admiral, U.S. Navy  
Director, Armed Forces Security Agency
