ARMY SERVICE FORCES
OFFICE OF THE CHIEF SIGNAL OFFICER
WASHINGTON 25, D. C.

SPSLG-3a

17 February 1944

Mr. William F. Friedman
Signal Security Division
Arlington, Virginia

Dear Mr. Friedman:

Inclosed herewith is your application for a patent, comprising a Petition, Specification, Oath, and License, in duplicate, and a photostatic copy of the drawing, entitled "Electrical System".

You should read over this application carefully and thoroughly. Minor corrections may be made in ink on the original. The inventor's initials and the date should be placed opposite each correction in ink in the margin.

If you have suggestions or comments, it is desired that you return this application duly executed, together with a separate letter setting forth such comments and suggestions.

Execution of the application consists in each inventor's signing his name (first name in full) at the four places indicated by the attached red tabs on the (a) Petition, (b) Specification, (c) Oath, as explained below, and (d) License, if any.

If the inventor is subject to military law, the Oath may be executed before a member of the Judge Advocate General's Department or other officer authorized to act as a notary public under Public Law 800, Article of War 114. If the inventor is a civilian, except when in a theatre of military operation, he must execute the oath before a notary public or other person mentioned in Revised Statute 4892, 35 U. S. Code 35.

It is requested that the executed original application be returned to this office. The duplicate copy of the application and the drawing may be retained by you, personally, for your files.

The papers so returned should not be marked "Restricted," "Confidential," or "Secret," (see A.G.O. Memorandum W 380-11-43), although they may be inclosed in a sealed envelope so marked on the outside.

Declassified and approved for release by NSA on 07-23-2014 pursuant to E.O. 13526

Yours very truly,

Donald K. Lippincott

Lieutenant Colonel, Signal Corps

Patents & Inventions Counsel, Legal Division

2 Incls.

Incl. 1-Patent Application

Incl. 2-Photostat Drawing
