20 Feb 45WAR DEPARTMENT
COMMUNICATIONS COORDINATION COMMITTEE
WASHINGTON 25, D. C.

24 January 1945

MEMORANDUM FOR MR. WILLIAM F. FRIEDMAN, DIRECTOR OF COMMUNICATIONS RESEARCH, SIGNAL SECURITY AGENCY, WASHINGTON 25, D. C.

Subject: General Address and Signature Code No. 2.

Reference: Memo, Friedman to Beckley, (SPSIS-3), 18Jan45.

1. Herewith is returned the copy of General Address and Signature Code No. 2 in use in 1925 in the War Department and corps area radio nets.

2. The Communications Coordination Committee is studying the question of addressing and drafting of messages based on a directive from the Chief Signal Officer. It is probable that the CCC will divide the study into two independent studies, namely, (1st) address and signature and (2nd) drafting of messages.

3. I expect reassignment before this CCC study has been concluded. However, it has been recommended that the CCC conduct a discussion with you and your Agency towards eliminating differences and misunderstandings now existing. Appreciate the loan of your copy.

S. A. Beckley,
Colonel, G.S.C.,
AGF Representative.
