on the GLAMOUR FRONT
by Max Factor, Jr.

There is nothing more alluring than a beautifully exposed neckline. This season's fashions give wonderful opportunity to reveal this most feminine feature, so frankly seek admirers by pampering your neck with beauty care. Apply a good night cream before retiring, and protect the delicate skin during the day with hand lotion from either too much sun or wind. On rainy days, you have in fan belts.)

THE WIVES

At the third step, the ball is well back and ready for the forward swing. The shoulders are square, parallel to the foul line, the right arm swinging.

At the fourth step, the right arm begins the forward swing, both knees begin to bend, and the feet start to slide on the ground. The left arm has been Employed for balance throughout the approach, and on the slide, the right leg also helps control your balance.

As the ball leaves the hand, the ball should be close to your left ankle. The right arm and wrist should be in a straight line from the shoulder, continuing the swing. Your fingers should be a little to the side of the ball as you start to release it. The right hand should act as a brake and should be allowed to drag a little to control your momentum. The left foot should be pointing forward and your right foot should be raised slightly to the right.

Practice this delivery. You'll get more out of your game when you start to play it correctly.

dots and FLashes

Smart shoppers will find that this is a good month to purchase baby goods. If your silverware is beginning to look worn, you can replace it yourself. You can now buy pure silver in liquid form which will do the job by gently rubbing the solution over the silverware. Couples with cramped quarters might want to look into a modular electric range. It's about 1/20th the size of a regular electric or gas range, but it has an infrared heating element in its chrome-plated base on which you can grill hamburgers and feed steaks and chops. The top has two aluminum pots nestled in wells. One is a percolator, the other is for soup or vegetables.

When the kids size of the toys they're playing with and begin yelling that they have nothing to do, here's a game you can set up for them or else they can make themselves it's sure to hold their interest—take a big white, anyway.

Take a large sheet of cardboard. Bend back one end of it to make it stand. Cut out six circular shapes as shown. You can use the bottom of a large bottle for outlining. Make sure that the circles will be larger than the ball you intend using. Mark the circles 25 to 100 as shown. The game can be played with any number of players. Stand ten feet away and take turns rolling the ball. The first player who scores 500 points wins. If you prefer, you can make up your own rules.

PRESENT ARMS!

You're going to a lot of trouble and expense for a pair of socks, with nothing happen. You won't start a chance.

You're going to a lot of trouble and expense for a pair of socks, with nothing happen. You won't start a chance.

A LOT OF TROUBLE FOR NOTHING.

5QD1ER! WITH ME ROUND.

The Story of Captain Robert B. Nett

In October 1944, a twenty-six-year-old infantry officer, Captain Robert B. Nett, of Company A, 16th Infantry, 2nd Infantry Division, was captured by the enemy while leading a counterattack near the town of Las Casas, on the Philippine island of Leyte.

Despite his injury, Nett continued to lead his men in the face of overwhelming odds, displaying extraordinary bravery and courage under fire.

His actions were recognized with the Medal of Honor, the nation's highest award for military valor.
