The Act of October 1, 1890 (10 212 USC) states in part "It is
chieff signal officers shall have charge, under the direction
of the Secretary of War, of all military signal stations and
twos, papers and devices connected therewith.
May be interpreted to include cases of capture, Army
regulations have the effect I have definitely placed the
responsibility on the chief signal officer.

The Army By 1901 P1274 changes CSG with the
preparation, distribution & revision of the
Department Telegraph Code. Some provision contended in

1. P157F AR 1904
   P 1571 AR 1908
   P 1574 AR 1909

2. P1556 AR 1913 same except director
   P 1576 Telecode changed to AG

3. P25 AR 1913 parts 1 & change to 1
   October 20, 1913 + P25 AR 1915-5 20 Jan 1916
   all states.

"For preparation of revision of the Army
Department Telegraph code and such
other codes and cyphers required by
the Army."
3. **Par AR 105-5** changes No. 1 May 2, 1929 & **Par AR 105-5**
   May 16, 1929 states:
   "The preparation and revision of all
   codes and ciphers required by the Army
   and its forces of war, the interception of
   enemy codes and wire traffic, the geographic
   location of enemy radio stations, the
   solution of intercepted enemy codes and
   ciphers, message and laboratory arrangements
   for the employment and detection of
   secret codes."

4. **Par AR 105-5** July 1, 1937 states:
   "The preparation, publication, revision, storage,
   accounting and distribution of all codes
   and ciphers required by the Army and its forces
   of war, the interception of enemy codes and
   wire traffic, the geographic location of
   enemy radio stations, the solution of
   intercepted enemy codes and ciphers, message
   and laboratory arrangements for the employment
   and detection of secret codes."
REF ID: A40388

Part employee

5. AR 105-5-1930 as amended by Chapter 61

C50 had follow-up supervision

5) Cost of paper compilation

8) Cost of paper solenoid

2) Interception of enemy radio wave traffic

3) Location of enemy radio transmitting stations

85) Laboratory arrangements for the employment of

detection of secret codes

""

The fundamental reason for placing the

responsibility for these devices upon the Chief

Signal Officer, is that all correlated devices

in connection with secret communications

may be assigned to an operating

agency for efficiency of operation. To see

this purpose, these devices will be

arranged by the Chief Signal Officer with a

single co-ordinated service.

designation for this single co-ordinated

service is suggested - Signal Intelligence

Service

6. General Mission - proper organization and
development in peace time to the end that

the service may be prepared to operate at

maximum efficiency in war.

Specific Mission - 9 Preparation of

Fall colors, signals and other means of

communication to be employed in the case of

peace or war.
