SECTION I - TASK ELEMENT

6924th Radio Squadron Mobile, 6920th Security Wing, United States
Air Force (USA-59).

SECTION II - MISSION

1. Provide, operate and control designated intercept facilities
and conduct such processing as may be directed in support of the over­
all National COMINT effort.

2. Provide, operate and control designated intercept facilities
and conduct such processing as may be required in support of the COMINT
mission assigned to the 6920th Security Wing and to Hq. USAFSS.

SECTION III - OPERATIONAL CONTROL

1. The Director, NSA, will exercise operational control over the
6924th RSM. As tasks of a close support nature develop or become neces­
sary, or as target communications which contribute to COMINT tasks de­
centralized to other COMINT field headquarters are assigned, operational
control of facilities allocated to such close support or contributory
tasks will be delegated to the COMINT unit concerned by the Director,
NSA.

2. Routine operational instructions will normally be issued
directly to the 6924th RSM by the Director, NSA. Non-routine operational
instructions, including changes to this order, will be issued by the
Director, NSA, through Commander, USAFSS.

3. The control of intercept facilities will be exercised in accordance with NSA Circular 51-10.

4. Detailed instructions concerning the tasking of the 6924th RSM will be issued as NSA Operations Order Annexes, as required.

SECTION IV - TECHNICAL CONTROL AND SUPPORT

1. Technical control will be exercised by the Director, NSA.

2. Technical control instructions will be issued directly to the 6924th RSM by the Director, NSA.

3. Technical support will be provided by the Director, NSA, by the 6920th Security Wing and by other sources designated.

4. 6924th RSM will provide technical support to subordinate detachments as required.

SECTION V - TASKS AND RESPONSIBILITIES

1. Intercept -

   a. Intercept and perform D/F of designated communications targets involving the following type of transmission:

      (1) Manual Morse

      (2) Radiotelephone

      (3) Radioprinter

      (4) Other transmissions as identified

   b. Record and forward all intercepted traffic to NSA and such other headquarters as may be designated.

2. Traffic Analysis -

   a. Perform traffic analysis and maintain TEXTA date for all intercepted traffic as required for local intercept control purposes.
b. Perform traffic analysis as required for local intercept control purposes, for processing of intercepted raw material and for other purposes, as directed.

3. Cryptanalytic Processing

Perform within capabilities, through the application of key and code recoveries furnished by NSA or the 6920th Security Wing, cryptanalytic processing and reporting of designated foreign cryptographic systems passed on assigned targets. Cryptographic systems designated for processing by the 6924th RSM will normally consist of low-grade systems containing intelligence useful as back-up for the intercept mission.

4. Reporting

a. Technical Reports - Prepare and forward periodic and special technical reports in accordance with NSA Operations Order Annexes, NSA Field Operations Manual, or as otherwise required.

b. End-Product Reports - Prepare, in accordance with appropriate NSA Operations Order Annexes and NSA Field Operations Manual, periodic, special, spot and other end-product reports, including translations. Technical data will not be included in COMINT end-product reports without prior approval of the Director, NSA. No such approval is granted by terms of this order.

5. Operational Liaison

a. Liaison with other U. S. COMINT units as required for successful accomplishment of this mission is authorized. The Chief, NSAFE, will be kept informed as to the nature and scope of this exchange.

b. Liaison with Foreign COMINT units and centers is not authorized.

6. Intelligence Requirements - Specific COMINT support requirements received from commanders in the field will be relayed to NSA, USAFSS, 6920th Security Wing and other units designated on a current basis in order that a review of the allocation of resources to meet requirements can be accomplished.
