

NSA's Future Home

14 May 1954

MEMORANDUM FOR ALL NSA PERSONNEL

SUBJECT: Move to Fort Meade.

Recently various rumors have been circulated throughout the Agency concerning delays or a cancellation of both the interim and final moves. Neither of these is true.

The construction authorities and personnel in movement activity state that work is progressing on schedule on all phases of the move.

The final plans for the Main NSA Building at Fort Meade were made available to interested bidders on 4 May 1954.

You may be assured that we are relocating at Fort Meade and that there is no change in the January 1955 date of our interim move.
