June 18, 1942

MEMORANDUM FOR ADMIRAL WILKINSON.

Following is an extract of the minutes of the inter-departmental meeting of June 17, 1942, which you requested, concerning the amendment which you proposed to the paper, Subject: "Report of Conference appointed to study Processing and Dissemination of Radio Intelligence "

"That a committee be designated composed of one representative from each service to consider the entire field of cryptanalysis to assure themselves that the three services can cover the entire field, and having assured themselves that they could cover the entire field, to avoid duplication of effort by allocation of the cryptanalysis, among the services, of those types which the respective services are best qualified to undertake. Provision should be made for pooling of effort aside from this allocation whenever circumstances require. Consideration should be given to the formation of a standing committee to pass upon any questions of allocation or pooling of efforts which may arise from time to time "
