TOP SECRET // UMBRA

SITUATION TITLE: Capture of the USS PUEBLO

1. Tip-off (Sensor): SITREP Message (USS PUEBLO SITREP ONE 220915Z Jan 68)

3. Who are Decision Makers/Users? Phase I. C.O. USS PUEBLO; Phase II CO USS PUEBLO/COMUSJAPAN; Phase III CINPAC and JCS; Phase IV/V CINPAC/JCS and President

4. What Information Needed?
      1) Exact location of Pueblo
      2) Type and number of surveillance craft
      3) Types and activity of other North Korean surface and air units in the general area.
      4) Other related military activity (alerts, etc.)
      5) Precedents for hostile reactions in near and inside claimed territorial waters and air space.
      6) Political-military situation in the area and likelihood of hostile reaction.
   b. Phase II: 230200Z Jan - 230400Z Jan 68
      1) Exact location, speed and course of USS PUEBLO
      2) Number and type of hostile aircraft in vicinity.
      3) Location and number of NK vessels on scene
      4) Related activity by North Korean Army, Navy, and Air Force (alerts, etc.)
      5) Type of evasive activity by PUEBLO
      6) Status of efforts by PUEBLO to implement contingency planning.
   c. Continue

5. When Needed:
   a. "Tip-off Timely?" Post mortem indicates qualified yes in that, 24 hours prior to actual "capture ship" investigated by two trawler type vessels. However, such surveillance lacked any sign of hostile intent and investigation even by a naval unit would not be unexpected.
   b. When Info Needed for Decision: Phase I. Information elements 4a (3), (6) are needed prior to initiation of mission.
   c. Continue
