No.15--

VIKTOR[111]

Notes: [a] The "J" in Russian transcription may be the last letter of a name ending in "Y" in English. Cf. BROMLEJ. The final digit of the four digit group preceding the "J" is the same as that for "GRE." The first 3 digits of this group are unrecoverable. Therefore, the name could be "GREJ," or Robert Bromley GRAY.

Comments:

[1] ZHANNA: Probably Christina KROTKOVA, former cover-name "OLA".

[11] ZORA: Flora Don WOVSCHIN.

[111] VIKTOR: Lt. Gen. P.M. FITIN.
