Dear Dr. Hamilton:

I did receive your April 17 letter requesting additional information about VENONA. My Deputy Director of Policy, Mr. James P. Cavanaugh, responded to your request in a letter dated 15 May 1996. If you have not received it, please advise and my staff will send you a copy.

Deputy Director  
National Security Agency

Dear Mr. Crowell:

I am writing to ask if you could let me know when exactly the Mar. 30, 1945 VENONA cable (#1822) referring to 'Ales' was actually broken into? Would it have been Aug. 8, 1969, the date at the bottom of the NSA document that was released last month, or did it occur much earlier, say between 1947 and 1952 when the bulk of the 1945 decryptions was done?

Also, are there any other cover names like 'Ales' in the VENONA traffic? In other words if Alger Hiss is this person, 'Ales' seems more like an acronym than a cryptonym and quite transparent whereas the names used to conceal identities of other Soviet spies in the material that has been made public so far do not seem to have such an obvious connection to the parties concerned.

In the Hiss exhibit at the Cryptological History museum, I understand there is a medal that Hiss is supposed to have gotten from the Soviets and I would appreciate it if you tell me the name of this award, how it was established that Hiss had received it and where and under what circumstances it had been given to him?

Thank you.  
Sincerely,

James W. Hamilton, M.D.
