23. SECTION III/5 - DRV - IRREGULAR TRAFFIC ON DRV COMMUNICATION CHANNELS

An advance field source reported that on 31 October 1964, an unidentified North Vietnamese communication terminal transmitted what appeared to be both DRV [] traffic to another unidentified and unlocated station. Intercept operator remarks indicated that these transmissions represented common activity rather than two stations active on the same frequency.

A further review of material available on this activity has determined that the identification of common activity cannot, as yet, be substantiated. Pending the receipt and analysis of further material, the present conclusion is that the evidence of common Vietnam [] activity represented above should be regarded as highly tenuous.

24. SECTION III/5 - STN - LIBERATION NEWS AGENCY REPORTS CAMBODIAN MEASURES FOR FURTHER JARAI VIOLATIONS

Cambodia has definite measures for opposing invasion activities of the American Imperialists and South Vietnamese lackeys. According to information from Phnom-Penh, Prime Minister Prince Norodom Sihanouk, the National Assembly, and the Cambodian government have decided upon measures for countering the continuous invasion actions of the American Imperialists and South Vietnamese lackeys in regard to Cambodia. Cambodia shall definitely sever foreign relations with the United States and the lackeys who continue to invade Cambodia, and at the same time, the Cambodian Army shall counter-attack the invading gangs. The Cambodian information Ministry informed that on 25 October the Americans and South Vietnamese lackeys mobilized many planes to retrieve the bodies of the invaders from the plane which the Khmer Air Force shot down on 24 October 1964 at Dac-dan in Ratanakire Province. The downed plane is still lying on Cambodian territory. The Cambodian information ministry emphasized that this is undisputable proof of the invasion actions of the American Air Force and lackeys in regard to Cambodia.
