

CSfC Selections for Authentication Server

Authentication Server products used in CSfC solutions shall be validated by NIAP/CCEVS or CCRA Partnering schemes as complying with the current requirements of NIAP's Protection Profile for Extended Package for Authentication Server Version 1.0. This validated compliance shall include the selectable requirements contained in this document.

CSfC selections for Extended Package for Authentication Server Version 1.0 evaluations:

At this time, the CSfC Program does not require any selectable requirements for Authentication Servers.
