

NSA/CSS Expired Products List for All Products

OVERVIEW

Devices included on this list were previously approved and met requirements set by the NSA/CSS for sanitizing storage devices, but no longer meet current requirements. Meant to serve as guidance, inclusion in this document is not an endorsement by the NSA/CSS or the U.S. Government. All listed products are authorized to sanitize TS/SCI and below until listed expiration date.

The NSA/CSS conducts continuous research on data recovery. This document is updated on an as-needed basis. The procedures for administration and distribution of the EPL are subject to change without notice.

Questions about specific models can be directed to the Center for Storage Device Sanitization Research at 301-688-1053 or CSDSR_NSA@nsa.gov.

REQUIREMENTS SUMMARY

Requirements Summary for specific product categories can be found on the associated EPL documents.

Devices that meet the NSA/CSS sanitization specification for specific media storage types are identified as such within the appropriate EPL documents.

Inclusion in this list does not guarantee the continued performance of equipment. Customers should re-test equipment according to manufacturer guidance.

In all cases, should any previously approved equipment need to be replaced or otherwise require a repair/replacement of a critical assembly (e.g. Shredder blade assembly, capacitor bank, etc.) the unit must be replaced with one listed on the appropriate EPL.

IMPORTANT REMINDERS

Remove all labels or markings that indicate previous use or classification.

When a product is removed from its Evaluated Products Lists and placed on the Expired Products List:

- DoD customers have a six-year grace period to replace the device as authorized by DoD 5200.01 V3 Enclosure 3 Section 17.
- IC customers should follow their organization's policy regarding this matter
- Government Contractors should follow guidance/policy of their government industrial security oversight organization

Equipment is listed in alphabetical order by vendor and this EPL contains all previously approved products that are subject to a six-year extension for DoD use. Models that are no longer manufactured are included. Model numbers on equipment must match the model numbers shown in this list.

| MAGNETIC DEGAUSSERS | | | | |
|---|---|-----------------------|-------------------|---|
| VENDOR | DEVICE NAME / MODEL EXPIRATION DATE | TAPE: OE RATING | HDD: OE RATING | REMARKS |
| Applied Magnetics Laboratory, Inc. | AML-6KG <i>April 2027</i> | Not Tested | L-5000, P-5000 | Requires disk disassembly plus 3 full-contact passes with rotation. |
