

# NSA/CSS Evaluated Products List for Optical Sanitization Devices

## OVERVIEW

Devices included on this list have passed evaluation by meeting the requirements set by the NSA/CSS for the sanitization of optical storage devices such as Compact Discs (CDs), Digital Versatile Discs (DVDs) and Blu-ray Discs (BDs). Meant to serve as guidance, inclusion in this document is not an endorsement by the NSA/CSS or the U.S. Government. All listed products sanitize TS/SCI and below.

The NSA/CSS conducts continuous research on data recovery and data sanitization. This document is updated on an as-needed basis. The procedures for administration and distribution of the EPL are subject to change without notice. Please see Expired Products list for more information about removed products.

Questions about specific models can be directed to the Center for Storage Device Sanitization Research at 301-688-1053 or [CSDSR\\_NSA@nsa.gov](mailto:CSDSR_NSA@nsa.gov).

## REQUIREMENTS SUMMARY

The device must sanitize optical storage devices (through grinding, milling, cutting, disintegrating, or knurling):

- CDs to a maximum edge size of 5 mm or less, and
- DVDs and BDs to a maximum edge size of 2 mm or less.

With a more stringent mandate for DVD and BD, equipment meeting this specification are identified as such.

Inclusion in this list does not guarantee the continued performance of equipment. Customers should re-test equipment according to manufacturer guidance.

## IMPORTANT REMINDERS

This list serves as guidance for the sanitization of optical storage devices.

Remove all labels or markings that indicate previous use or classification.

Each device offers different convenience features, capacities, feed sizes, footprints and power requirements. Contact the vendor to identify the unit(s) best suited to your site's needs.

Equipment is listed in alphabetical order by vendor. Models that are no longer manufactured but still approved are included as well. Model numbers on equipment must match the model numbers shown in this list.

Alternate or previously used retail names appear in parentheses.
