53604	10-Sep-2007	James Scott	Is the "Deely Report" a reference to former NSA staffer Walt Deely, who prepared a lengthlt report on the Liberty attack. I assume that report is the one titled "Report to the Director NSA: USS Liberty (AGTR-5), 23 May - 8 June 1067," which was released this summer. Is it possible to confirm whether this is accurate? Also, requesting a copy of the report entitled "A Review of the Technical Research Program, 1961-1969," by author Julie Alger.

53608	11-Sep-2007	Wil Lepkowski	Information for biography of William O. Baker (contributions to national intelligence in general and the NSA in particular). More specifically, Baker headed a group in 1957, informally known as the Baker Committee whose goal was to put forth a plan to project the U.S. ahead of the Soviet Union in the application of communications, computer science, mathematics, and information theory to cryptology. I would like to determine if I could have at least reading access to that report. Baker did other things of note to Intelligence during that Cold War Period and I am trying to compile a broad list of the many contributions of this great man. I knew him personally as a reporter during the period 1970 to 2000.	(b) (6) Non - Responsive
