Dear Elizabeth

I must thank you so very much for the fine gift of the Nylon you sent me, and the coffee I appreciated very much as such things are very scarce here.

I thank also Bill for the stories he brought for our help. I wish he had seen and heard how they enjoyed getting these gifts.

It is now soon to run and I have already started on the preparations. We hope to have Margarita and Ole here for the holidays, and then Pa will be the only one of our children who will be away at that time.

I am so happy that you have now your new home which I am sure you will enjoy immensely putting in order.

Love and greetings to you all

Yours
A
