BORIS HAGELIN

Dear Bill:

Many thanks for your kind letter of May 18th. And congratulations again, now that everything is O.K.

With regard to the reprint, my idea was to use it to send to each of my customers and friends, who would like to have a succinct article on cryptography. I would not use it directly as "advertising" and it could not be used as such either, as your article is strictly neutral. I think this statement is fair, let me know, and I will send in my order. Amine & I have now been here since the 22nd, and we have been taking it easy, taking thermal baths in our own bathroom in the hotel, drinking the water, walking, eating and resting. The weather is wonderful, and we hope it will stay so. We expect to make a couple of short trips, up into the hills, and also to Alsace, on the other side of the Rhine, which is only 7 or 8 miles away.

We do hope you and Elizabeth are in good health, and that you begin by and by to plan for your next visit to Europe. With best regards,
