My dear Bill, I decided about a week of weeks ago to do something about my troublesome bladder, so Annie & I returned to Sundsvik ten days ago, and on the 23rd I was operated on at ~~the~~ our provincial hospital. It was not a real prostate operation; the doctor only removed a small part from the neck of the bladder, which should give me the desired relief. Up to now everything is O.K. so I expect to move to my oldest son's home in the neighborhood in a couple of days. And then later on, when there is no more need for treatments, I shall return to Sundsvik.

I have been afraid that you have written off my promise to send you some photos, like you had to do with the's. - I have been after my people in Buz several times, and it is in the works! So I trust that it won't be too long before you have the pictures.

I talked with Nyberg yesterday over the phone. Our tests with printing on the fly are very successful, so we do not expect any difficulties with the planned speed of 10 signs/sec. - ~~the~~ I do hope you could see some time the progress we have made since you were in Buz last time, it has been considerable.

- We have had a very beautiful spring in Buz, and here in Sweden the weather has been fine also since our arrival. - We had a nice trip up: in the evening of Apr. 20 we drove up to Gäddede where we got the car on the night train (and ourselves in the sleeper) to Gäddede. Next day we drove up to a place in southern Sweden (with two ferry crossings) where we spent the second night. And on the 22nd we arrived in Sundsvik in the afternoon. I still enjoy driving, and Annie is an ideal companion - she doesn't mind comparatively high sustained speeds. Now I do hope both you and Elizabeth are well, and I wish you all the best.

If you write to me, please address to Sundsvik.  
Affectionately [in bed]
