

BORIS HAGELIN Zug, September 26, 1961.

Dear Will,

As I have a courier to Washington DC today, I am sending you a somewhat belated birthday gift. I hope you like it and that you can find a suitable place to put it in your home!

I also thank you for your kind letter of Sept 15 which I got on our arrival in Zug a few days ago! we left Lundvik on Sept 18.

I understand and share your feelings towards the rules in the Kremlin - but what can we do? With regard to the attitude

of the people
shaded with reference
to call out shelters etc.
it seems that the
concern about the
dangers increases with
with the square of the
distance. You can see
Nyxer!

All the best to you
and Elizabeth.

Affectionate regards
from your old friends

Ann & Fred.

P.S. I had an operation
although it left most
of the prostate intact.
I feel OK now.
