

BORIS HAGELIN

Version 2.0 rev 1/10

Dear Bill:

It is long since I heard from you and I have been wondering how you have been. I hope all O.K.!

Annie & myself have spent two weeks on The Riviera. Plenty of sun but not too warm, and we have not been able to get rid of our colds, which we had hoped to get cured here.

Next week we expect to be back in Gup again. We are working hard on the rotor machine - a prototype is running at a speed of 10 signs/sec. There will be an electronic version also.

And now to the big question: can we persuade you and

Elizabeth to attend my birthday dinner on July 2nd, including transportation to and from the dinner, etc.

You will get a formal invitation
later on, but I do hope
that you can already now
answer yes.

We have had rather un-
settled weather the last
couple of months: snow
and cold weather alternating
with rain and "Föhn", which
is the warm wind from
the south in Switzerland.
The news from the children
are good, we expect to
have them all in Sweden
this summer.

Now do please drop me
a few lines!

We both, Annie &
myself, send you and
Elizabeth our affectionate
regards.

Sincerely
John
