

Sandnevik, August 7,
1962.

Dear Bill:

Many thanks for your two letters, of July 9th & 17th. We were glad to learn that you still have pleasant memories of the little frog!

And we were above all happy to hear that you are serving in a consultant capacity with RGA, which also allows you to write about things you are interested in - all this seems to indicate that you are keeping busy in a happy sort of way!

We have now spent three weeks at Sandhamn. Unfortunately the weather was rather cold, and both Annie and myself caught colds. Now we are going to Fryksås, Orsa, tomorrow, and hope that we get some better weather there soon.

We expect to be back here at the end of this month. Then we plan to leave for points south on Sept. 14, and should arrive in Zug on Sept 22. We have friends to visit in Gothenburg, Copenhagen, Kiel and Bonn.

I have read both books you sent me. The Secret War was especially interesting, but one gets rather depressed when one realizes the extent of spying, going on, and the methods employed. Of course, one has heard a lot about this before, but in this book one got it all concentrated. I now look forward to the offprint you kindly promised to send me. I feel sure that this will be less grim reading than this book.

How are your travel plans shaping up? We shall probably be in Menton early in October, in order to get some details in connection with our new apartment there settled. Could we meet there, or in Zug?

With affectionate regards from us both to you and Elizabeth!

Sincerely
