

Dear Bill:

Your letter of June 27 just came to hand.

We bid you and Elizebeth welcome to Stockholm and to Sandhamn, where we shall expect you with the M/S "Express II", on the 12th of this month. I would suggest that you have your luncheon on board, as otherwise it would become rather late in the day for that meal, if taken at our house.

In case you would like to call us up from Stockholm, our phone at Sandhamn is 0766-53040.

I am going to tell Sture that you will be leaving Menton already on the 8th, in case he would want to start his vacations earlier than originally planned.

Could I ask you to tell the concierge to let Nybergs in, if necessary? They are likely to arrive in the evening, and Sture will bring his own key to the apartment.

We have now had a couple of fine days, and we do hope that the weather will stay good for the rest of the summer.

We look forward to seeing you and Elizebeth at Sandhamn and in the meantime, we send you both our affectionate regards.

Sincerely,

Thors

PS: It was nice to learn that the
parquet floor is being attended to.
