REF ID: A2263299
Sandhamn, July 17, 1964.

Dear Elizabeth and Bill,

It is now so long since we heard from each other, that I must send you a few lines.

We have been in Sandhamn since the 1st of this month. We first had cold wet stormy weather, but this week has been perfect, warm and sunny. The house is quite full, Margareta Ingrid and their children are with us, and we have a lively time. I am not doing any sailing this summer, so Karl-Wilhelm has care of the Astarte. Annie has bought a small sailboat "Flying Junior" for the children to use - I mean the grandchildren. And I have got a new motorboat, which is roomy and quite fast, and we make small tours with picknicking on some island or other.

I have not been writing any autography, although I made some notes for a lecture about my "carrier", which I read in Bonn in May for Hüttenhains people, - this might also serve as material for an eventual biography. But I have been toiling on the translation of my fathers memoirs, at least one typewritten page each day.

The young people are leaving for Sundsvik on the 20th. Annie and myself will stay here until about August 1st, when we will join them, and stay in Sundsvik until they leave for the US around Aug 15. Then it will be time for us to go to Fryksås. We have now been connected up to the new water supply, and we will get a bathroom and a sauna ready in the basement when we come there.

In Zug we have made an important decision - to build a new

REF ID: A2263299
Factory. This was in Gausen, a neighboring community - five minutes by car from our home. It will be much larger than the present shop, and of course quite modern. I only hope that there will be work enough for us when we move over there. The whole job will cost ab. 1.5 million \$, so it is quite a responsibility.

We do hope that this will find you both in good shape. We both are feeling as well as one can expect at our age.

With beste regards from us all,

Affectionately

Tom
