

6.500 Zug, March 19, 66.

BORIS HAGELIN

Bo is visiting us, and sends his best regards. He will come to Sweden again in the summer, with his family, as will both Ingrid and Margaret as our oldest offspring Karl Wilhelm will be 50 then. Time flies! Now we do hope that this will find you in good shape and spirits and with affectionate regards we are your old friends Annie & Fritz.

call the
connections!*

Dear Elizebeth,

Many thanks for your kind letter of the 11th.

Yes, we are now soon out of our house: on the 25th we will leave it for good and go to Minusio. As our apartment will not be ready for us before end of April we will probably go on to Menton and spend some time there.

Our address will in the meantime be c/o Crypto AG Zug.

In May we will be back in Zug for a visit, as there will be a house-warming party for all who are employed at the Crypto AG. We have already begun to move the shop from the old place to the ~~new~~, but a lot remains to be done in our new works, before it will be finished. It will be quite imposing, if compared with our present factory.

But it will also mean that we shall need still more business than we have at present, as the overhead will become considerably higher than it is now. The year has however begun well, and we hope that it will continue so.

As to health, Annie is in good shape, and I myself cannot complain.

And we were very happy to learn that Bill feels better, we only hope that you yourself have no longer those complaints that plagued you some time after your return to the US from your long sojourn in Europe in '63.

We noted that you were thinking of getting a smaller house or an apartment, but tha Bill does not savor the thought of an apartment. Well, we ourselves are moving to an apartment, but it is a penthouse, and I would not advise you to take an apartment halfway up, so as to have neighbors over, under and on both sides of your own home!
