

Frykås, Orsa
Aug 21, 1966.

Dear Elizabeth and Will,
We were very happy to have your letters of Aug 10, which were forwarded to Orsa.

Now first of all Annie and myself want to send our very best wishes to Elizabeth, on the occasion of her birthday, and wish her all that is good! That we all get older and older is inevitable, but the main thing is that we carry on!

Then I - Ivars - want to thank you for his letter, the first in several years. I had feared that the long silence could have meant that some - for me unknown trouble - connected with me, and I am therefore happy to have a real letter from you again. I think that you have done the right thing with your library. And in case you should have any duplicates you know that I would be interested.

We have followed our usual summer routine! After Sandhemmen where the weather was perfect, Frykås - where we first had 12

REF ID: A2263328
days of heavy rains, followed
by a week with fine weather.
Migrid, Margareta & their children
were in Menton in July, up to
the 29th, when Karl Wilhelm
threw a big party to celebrate
his 50th anniversary. - They
came there, with 2 of Tho's
children to Figueas, where - in
contrast to Menton - they had
the miserable weather. They
spent then a nice week in Sundsvik
and have just now returned
to the U.S. - Annie & myself
expect to stay here until the
27th, and after that two weeks in
Sundsvik and Stockholm. We will
then return to Zep, and from there
to Minico, where we expect to get
fully settled towards the end of
September. We will write you from
there. - Now we send our best
regards and good wishes, and we
are always your old affectionate
friends Annie & Tho.

And thanks for Nilla's photo! Still
the Adolphe Meyer look!
