Dr. Claude E. Shannon
Bell Telephone Laboratories, Inc.
Murray Hill, New Jersey

Dear Dr. Shannon:

The next regular meeting of SCAG, which had been scheduled to be held on 5 and 6 March 1952, is to be held instead on 12 and 13 March. The agenda for the meeting may be sent you in advance thereof.

If you can arrange it, I suggest that you come to Washington, to the Navy Security Station, for one or two days' consultation in advance of the scheduled meeting, say on the 12th and 13th of February. Some of my associates would like to consult with you about several things, among which is the theory and computational aspects of an iterative procedure we are using. I think you already know some parts of the problem, at least in a general way. We also have some papers which you might find interesting to review.

Please advise if the date is satisfactory, and I will arrange travel orders and find a desk for you. If it is not consistent with your plans, please name a date which would be more convenient.

Sincerely,

WILLIAM F. FRIEDMAN
Consultant
