

Brigadier General Woodbury W. Burgess, USAF
 Director of Intelligence
 Air Defense Command
 2nd Air Force Base
 Colorado Springs, Colorado

Dear General Burgess:

On behalf of the Special Study Group, I want to express our appreciation of the courtesies and assistance rendered us during our recent visit to Air Defense Command. The briefings and the subsequent discussions gave us a better understanding of functioning of the Command, and of its relation to the other parts of our defense system. Our visit has greatly helped us to focus our study on those vital elements of the problem with which we are all concerned.

We were particularly impressed with the system you have devised, and are confidently expecting that the material relating thereto, which your Directorate is forwarding us, will prove an invaluable aid in accomplishing our mission.

Very sincerely yours,

H. F. ROBERTSON
 Chairman
 Special Study Group
