COMMENT NO. 2

1. Suggest adding to this list some of the publications (RESTRICTED) of the Signal Intelligence Service, such as the one on solution of the Zimmermann Telegram.

2. Suggest also telling them that they can buy certain books on open market, such as Fletcher Pratt's Secret and Urgent, etc. (They have a copy of Yardley's American Black Chamber but you can list that anyhow.)

3. Please let me see revised list.
