Dr. W. E. T. Baker
 Vice President
 General Electric Company
 Syracuse, New York

Dear Dr. Baker:

Mr. Friedman acknowledges receipt of your letter of 6 August 1953

He has discussed the matter with me and regrets that prior commitments preclude the possibility of your attending any meeting other than on 11 September 1953. Your attendance at that one day's meeting is desirable, since it is then that the Board intends to review the draft report of the study group on air defense.

We will send you invitational travel orders in the near future.

Sincerely,

I. T. McDONALD
 1st Lt., USAF

M/R: Dr. Baker was invited to attend a session of the NSASAB's special study group starting 31 August thru 11 Sept. (Ser. 3742). Dr. Baker's reply (dtd 6 Aug 53) states he will not be able to attend except possibly the last day (11 Sept.) due to prior commitments.
