

14 May 1953

Dear Stewart:

Letter, as per the inclosed, is going out today to Board members, including the most recently-appointed member, Dr. Walter R. G. Baker. I hope that the letter is satisfactory. After discussing the matter with Admiral Wenger, I did not include with the agenda any list of names of nominees for the various panels.

I imagine that Dr. Leibler has been keeping you informed about SCAMP affairs. We still are not absolutely certain as to the part to be played by the Bureau of Standards. I believe that if that deal falls through we can get Robertson to arrange with CalTech to hold the SCAMP on his premises, but of course this would not be nearly as satisfactory and would be undertaken only as a last resort.

Looking forward to seeing you soon.

Sincerely,

1 Incl:
