MEMORANDUM FOR DR. KULLBACK

With reference to the attached memorandum from Mr. Stauffer, subject: Responsibility of Director for Actions of Employees in Invention and Patent Matters, I invite attention to the accompanying "Interpretations and Opinions" of the Government Patents Board and specifically call attention to the two documents in connection with our part-time consultants and part-time employees. It would appear that we should report to the Chairman of the Government Patents Board for approval to exclude all our part-time consultants and part-time employees from the provisions of Executive Order 10096.

WILLIAM F. FRIEDMAN
Special Assistant
