MEMORANDUM FOR THE CHIEF, SECURITY CONTROL DIVISION

SUBJECT: Request for Additional Clearances

1. The Director, NSA has to find a GS-18 (or P-9) civilian qualified to become Deputy Director for Research and Development in his new organization. This is going to be somewhat difficult because of the special qualifications such a Deputy must possess and it may be necessary to canvass the field of possibilities quite carefully. Also, because of the candidate's need for having a COMINT clearance, it will be necessary to ascertain eligibility for such clearance before an approach is made to any candidate not already having such a clearance. I regret to have to add to the already large number of requests recently submitted by me for SCAMP, Advisory Board, and other purposes, but I see no way of avoiding this procedure which I realize entails looking into the clearance status of many more individuals than will be selected for a specific purpose or job.

2. It is requested that the clearance status or clearability for COMINT be ascertained for each of the following candidates for the job of Deputy Director for Research and Development:

(1) ALVAREZ, Luis W.
 D.O.B. - 13 June 1911
 P.O.B. - San Francisco, California
 Present position and address:
