Dear Sam:

Some ideas consistent with some of your own thinking on certain of our problems have been expressed recently and I would like to discuss them with you. I do not believe it is of sufficient urgency to warrant your making a special trip down here; but if you happen to be in town sometime in the reasonably near future, perhaps we could get together for an hour or so and discuss the matter.

Sincerely,

WILLIAM F. FRIEDMAN
 Executive Secretary
 NSA Scientific Advisory Board
