

18 October 1954

MEMORANDUM FOR MR. FRIEDMAN:

Subject: SAC/OTM

Dr. Tukey called this office this morning in regard to a follow-up visit by members of his subcommittee to NSA. He did not say specifically who or how many would come. He was unable to say definitely when or for how long they would come, other than that it would not be before next week. He did say that they wanted to visit Arlington Hall and spend most of their time "in Conley's shop". He seems to prefer (for convenience) dealing directly with the PROD people who will handle the visit.

I told him that I would look into the situation with a view to making the most convenient arrangements practicable and would call him back.

I. T. McDONALD
Captain USAF
