Mr. Leo Rosen
 c/o Anderson-Nichols Company
 150 Causeway Street
 Boston 14, Massachusetts

Dear Leo:

As you may already know, the National Security Agency Scientific Advisory Board (NSASAB), a body with terms of reference set forth in the inclosure to this letter, would like to be in a position to call upon certain types of specialists for part-time services or for special consultation in matters of interest to NSA. Accordingly, three panels have been established, devoted respectively to the fields of mathematics, telecommunications, and electronics. Formal meetings of the panels will be very infrequent, and, as a general rule, panel members will be called upon to assist the Agency on an individual consultant basis and then only as their own time and convenience permit. The problems involved can entail work on both the applied and research levels.

I would like very much to submit your name for membership on the Electronics Panel, whose Chairman is Dr. Howard T. Engstrom, Assistant Vice President, Engineering Research Associates, Division of Remington Rand, Inc., 507 18th Street South, Arlington, Virginia.

If you are interested in assisting us in some of our problems, please accept this invitation so that we may accomplish the necessary appointment.

If you do not have the required storage facilities (three-combination safe or its equivalent) for the inclosure, please return it in the double envelope inclosed herewith.
