Dear Dr. Rajchman:

It is with regret that I learned from General Canine that your commitments are such as to preclude the possibility of your accepting membership on the Electronics Panel of the National Security Agency Scientific Advisory Board.

Perhaps sometime in the future your commitments will relax to the point where you feel you could accept this nomination. If that should prove to be the case, I would appreciate your informing me of the change in your situation.

At this time let me thank you for your kind consideration of our invitation even though you are unable to accept it at the moment.

Sincerely,

WILLIAM F. FRIEDMAN
Executive Secretary
NSA Scientific Advisory Board
